TURKEY

Subject: Invited presentation

The undersigned, Prof. Dr. Raffaele Spinelli (PhD) confirms that Prof. Murad ÇANAKCI offered an invited presentation at the International Conference and Showcase Day jointly organized by CNR and ITABIA (Italian Biomass Association) on Friday April 21st, 2023 in Calimera, Italy.

The title of the presentation was "Studies on the valorization of pruning residues in Akdeniz University, Turkiye", and was perfectly in line with the subject of the Conference: "Power and heating from olive tree pruning". The Conference was an international event organized within the scope of EU Project BRANCHES (https://www.branchesproject.eu/) and was attended by over 70 experts from Italy, Austria, Finland, Germany, Lithuania and Poland.

Prof. ÇANAKCI's presentation was very well received and the audience later asked interesting questions, duly addressed by the Author and the moderator.

On behalf of the project management and the organizing committee of the Conference, I express my esteem and gratitude to Prof. ÇANAKCI for his most valuable contribution to the event. I hope that his participation to the Conference will reinforce cooperation between CNR and Akadeniz University, and help build a bridge between our countries.

Best regards

Prof. Dr. Raffaele Spinelli (PhD)
Scientific responsible for the event
Project leader for CNR
